

**MANUFACTURING, INC.**

# **Titan 1090**

## **Mobile Assembly Transporter**

The Mobile Assembly Fixture/Transporter is one of several custom units provided for a manufacturer of heavy equipment. The unit was designed as a variable height, mobile assembly fixture. Auger assemblies are now ergonomically built and then transported directly to the point of installation.

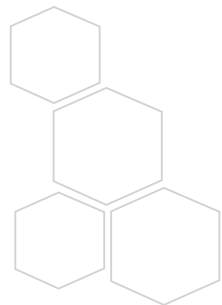

### **Features:**

- 20" vertical lift
- Pneumatic clamps and tiller drive
- Heavy duty structural steel construction
- High durometer urethane swivel casters on all (4) corners with locking mechanisms that enable length or width driving modes
- Pneumatic powered hydraulic scissor lift with sealed drip pan

### **Options:**

- Custom sizes & decking configurations
- Custom clamping
- Tilt decks
- Load capacities to 12,000 lb.
- Self-contained battery power
- Tiller drive attachment points (at both width & length)
- Accordion safety skirting
- Docking mechanism
- Custom lift strokes
- Stationary units
- Custom finishes

2,300 lbs. Capacity
