

MODEL - 194745

DIE SPLITTER

40,000 LB CAPACITY

ALL EQUIPMENT CAN BE CUSTOMIZED TO ANY SIZE OR SPECIFICATION

MANUFACTURING, INC.

SPECIFICATIONS

40,000 lb. die is crane-loaded to transfer car which delivers the die into the splitter

Magnetic clamping in rams secures top half of die and splits the tool

Once split, the lower die half is removed on transfer car for servicing

The ram & upper die rotate 180-degrees and lowers inverted top half for service access

Top half can be serviced in the splitter or removed on a transfer car for remote servicing

Reassembly is completed by reversing this sequence

User friendly touchscreen HMI for single operator design

Twin tower steel construction capable of withstanding extreme forces
